

size
2 different color balls 2cm in diameter

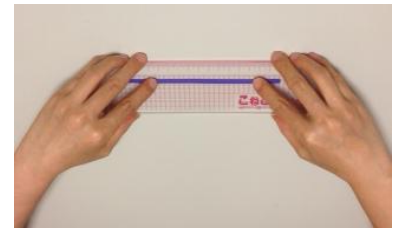

< **Tools needed to make lollipop** >
 a ruler (20cm or more), a cup of water, a wet towel, toothpick, glitter, rhine stones

- Choose two different colors.
 Make balls 2cm in diameter.
 Place a ruler on top of the balls and move it back and forth to make two 10-cm cylinder sticks.
 Make sure the clay is really soft and moist.
 Otherwise, it cracks easily.

How to hold a ruler

Hold a ruler with both of your hands.

- Put two sticks together and twist it from one side to the other.
 Move the ruler back forth again to make a 17-cm stick.
 Make both ends narrow like cones tilting the ruler.

- Curl it around like this. Stick in a toothpick.
 You've made a lollipop!

If you'd like, you can put some glitter or rhine stones on it.
 It'll look even prettier!
 You could glue a magnet on the back and put it on the refrigerator or something.
